

# Måns Berggren

## Gameplay and Systems Programmer

Looking for an internship September 2025 - April 2026  
Willing and able to relocate.

Video games are the intersection of all areas of human creative endeavour, and they are my grand passion.

After 6 years of study and a lifetime of experiences, I am ready to begin my journey in professional game development.

It would be my honor to accompany you in creating incredible experiences for people, that will stay with them for many years to come.
